Happy Dasara... Happy Muharram... Happy Diwali....

Excellence is a continuous process, not an accident.

Dr APJ Abdul Kalam

Spring is here... Almost half-a-million locals, inter-state and international visitors are flocking to **Canberra Floriade**, the largest flower festival in the Southern Hemisphere, to celebrate spring in style!

Floriade is **not an overnight success story**. Meticulous planning takes place literally **inch-by-inch** running more than a year! Once the concept drawings are finalised, during autumn, **garden beds** are dug to 15 cm deep over the **four-hectare** site; it is then filled with 3000 box trailers of quality plant compost. **20 gardeners** plant more than **one million bulbs** in various colors (matching the concept design) over a period of **seven weeks**. During winter, bulbs become more mature. Come Spring, Floriade opens to the public!

What does this tell us? Take **one step at a time** in the right direction to attain excellence!
